

# Case Study

## Industrial

Industrial applications vary markedly between applications. Power consumption can be small to large with different locations requiring customised set of specifications.

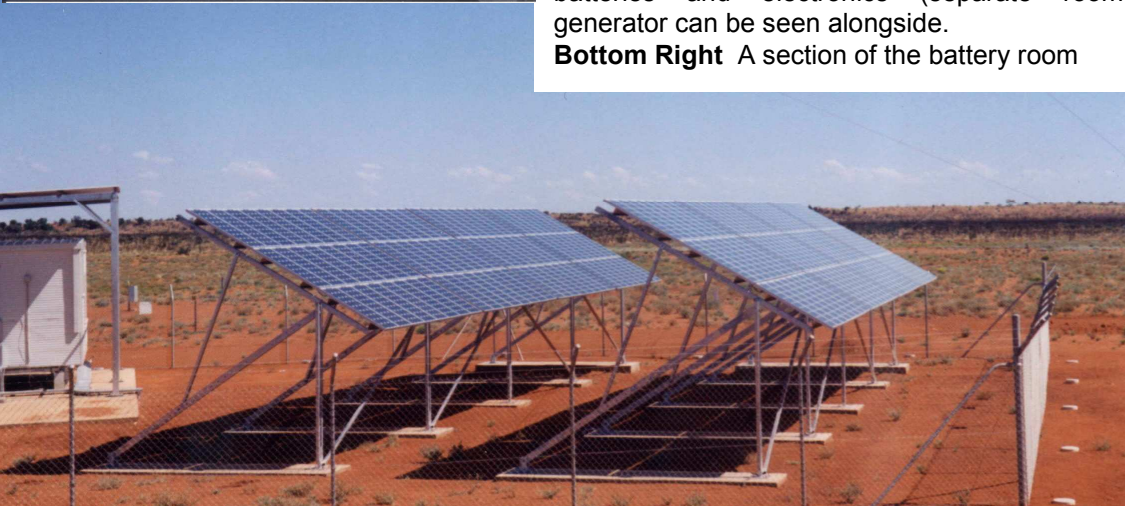

This application required utmost reliability and to be electrically noise free. WA Solar Supplies was able to work with the customer and through extensive engineering effort, delivered a system that exceeds all expectations.

**Top Left** 2 custom RF shielded 650 racks were used to house the solar regulators and power conversion center.

**Left** The solar array mounted on industrial high mount array frames.

**Bottom Left** The white power room housing the batteries and electronics (separate rooms). The generator can be seen alongside.

**Bottom Right** A section of the battery room
